About Us

Ridgeside K9 works to help unleash your dog's full potential through training programs that result in a happy, confident, and obedient dog. With over 20+ years of experience in dog training, Ridgeside K9 has become the go-to expert for dog training. We can train any dog, any breed, any age, and any behavior issue.

Whether you're dealing with behavioral challenges or starting your puppy on the right paw, our trainers specialize in customized solutions to meet your dog's specific needs.

Aside from our trainer's home board and train program, what truly distinguishes Ridgeside K9 is our state-of-the-art Behavioral Center in Winchester, VA.

Board & Train Programs

Each board and training program is customized for the individual dog.

Puppy Training

(8 Weeks Up To 4 Months Old)

We will provide your puppy the foundation for essential obedience skills. This training introduces commands like heel, sit, down, and place.

Obedience Training

(On-Leash or Basic and Advanced Off-Leash)

Our training goal is always to provide your dog with the strongest obedience foundation possible to ensure you and your dog can fall back on obedience whenever needed in real-world situations.

Impulse Control Training

We will teach your dog impulse control and self-capping drive. This training is critical in helping your dog know how to communicate for long-term success.

Aggression /Reactivity Training

Our trainers will work with dogs that are aggressive toward people or other animals. They'll teach your dog how to behave appropriately both at home and in public.

Service Dog Training

(Preparation Training or Task Training Options)

We focus on building a strong foundation, teaching advanced skills, and ensuring your dog is ready to meet the unique needs of service work.

Adventure Training

(Available to previously trained clients)

Through a blend of off-leash training and exposure to new experiences, we help your dog grow into the perfect adventure partner.
